

COLORS AND NUMBERS A TALE OF FRIENDSHIP AND CELEBRATION

7th Grade – Olympics 2
Barão de Studart

ACKNOWLEDGEMENTS

To God, thank You for blessing us with the gift of creativity, determination, and resilience. Your divine presence has guided us through every obstacle and triumph, and we humbly acknowledge Your grace in our lives.

To our families, thank you for your patience, understanding, and faith in our abilities. Your love has been our rock, and we are grateful for your support. Your love, guidance, and belief in us have been the driving forces behind our success.

To Colégio Christus, our appreciation for providing us with a nurturing and supportive learning environment. Your dedication to excellence and commitment have played a significant role in our academic and personal development.

To our teachers, Mr. João Pedro Viana and Mrs. Sueli Mendes, thank you for inspiring us, guiding us, and instilling in us a love for learning English. Your wisdom and encouragement have shaped us into the individuals we are today.

To our readers, thank you for embarking on this journey with us. We hope that our story inspires you, uplifts you, and fills your heart with joy. May our words resonate with you and ignite a spark of positivity and hope in your soul.

With heartfelt appreciation,

7th Grade – Olympics 2
Christus Barão de Studart

In a kingdom where colors live, there are houses painted in white, black, blue, red, purple, pink, yellow, orange, green and brown. Their king, as bright as a shining star, watches over them.

Not too far away, in other land, numbers rule. Zero, one, two, three, four, five, six, seven, eight, and nine are like a big family, ruled by their leader, King Zero.

One sunny day, the kings decide to meet. They talk about how amazing their kingdoms are and think it would be fun to have a big party together.

The kingdom of colors gets ready for the party by painting colorful pictures on the walls and hanging bright flags from the rooftops.

In the land of numbers, they make fun games with numbers to play at the party, like counting how many balloons there are or adding up the flowers.

When the day of the party arrives, the sun smiles down on the kingdom, making everything sparkle and shines.

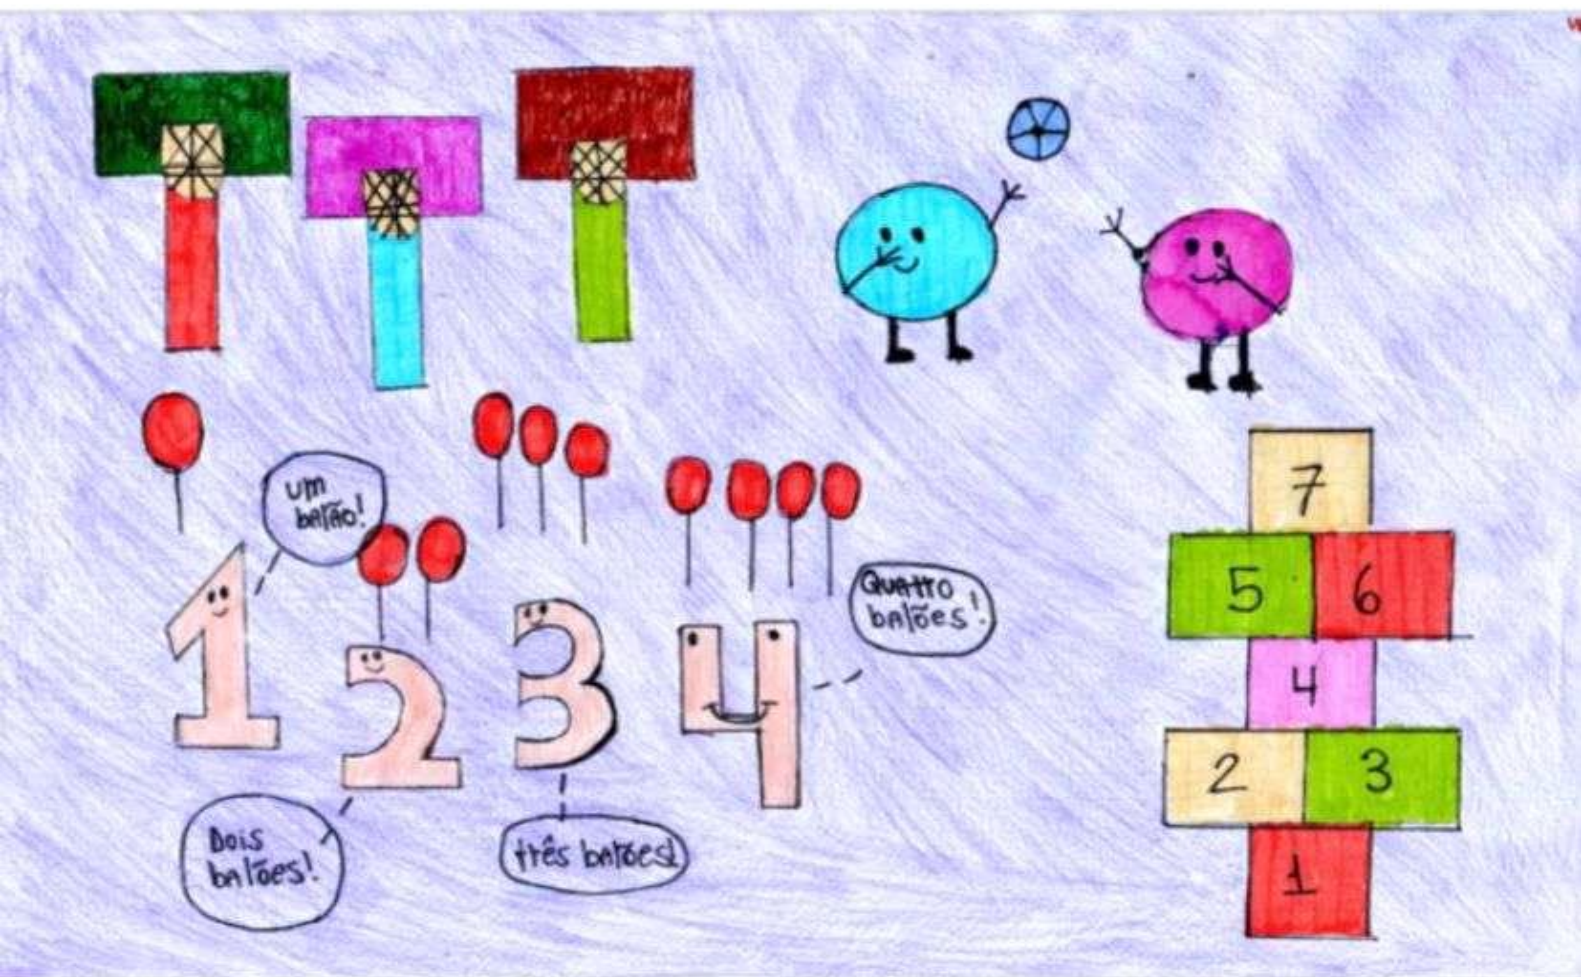

Everyone from both kingdoms comes to the party, wearing their favorite colors and numbers. They dance and sing, showing off their special talents.

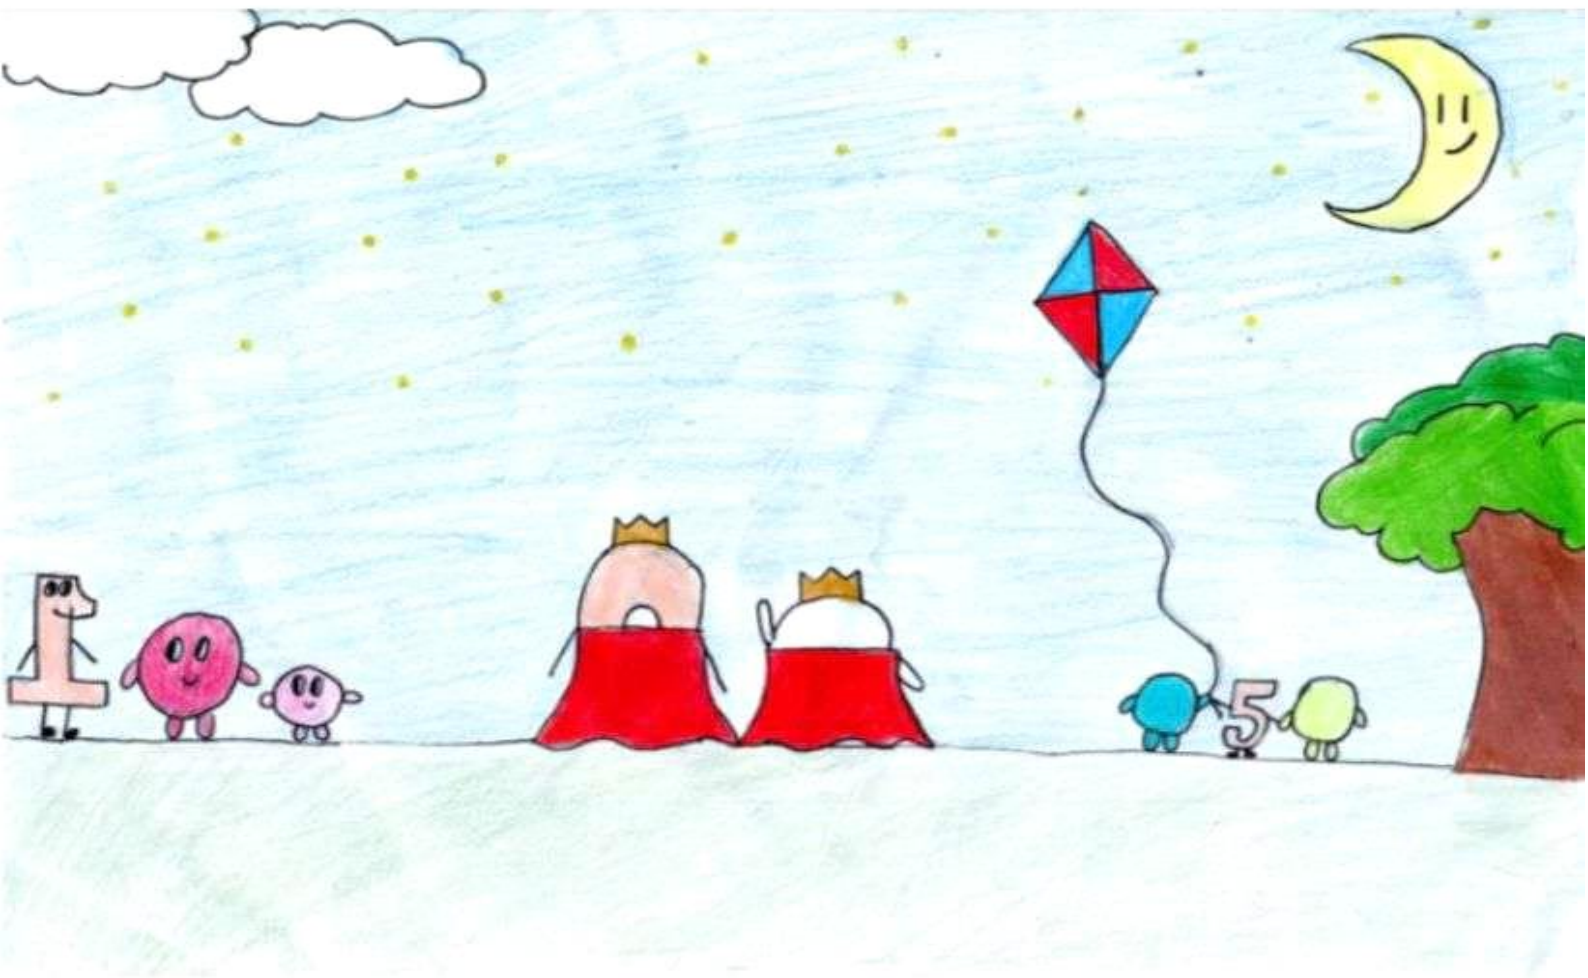

There is a big parade with colorful floats and people holding big numbers, marching happily, together through the streets.

Games are played, like guessing how many red apples there are in a basket or finding all the blue birds in the sky.

As the stars twinkle in the night sky, the kings look at each other with big smiles. They know that colors and numbers can always be friends, and they live happily ever after.

CLASS BIOGRAPHY

Join us on an exciting adventure as we share the story of how this book came to be. Imagine our surprise when we heard the news that we were going to create a book! We had never done anything like this before, so we felt a mix of excitement and nerves. But we also thought it sounded like a lot of fun, and we couldn't wait to get started.

Even though it seemed like a big challenge, we were determined to give it our best shot. We spent a lot of time thinking up ideas and working together to bring them to life. It was hard work, but we also had a lot of fun along the way.

Now that our book is finished, we are so happy to share it with you! We hope you enjoy reading it as much as we enjoyed making it. Let the adventure begin!
