

FTO. 7B

Chloe, The BALLERINA

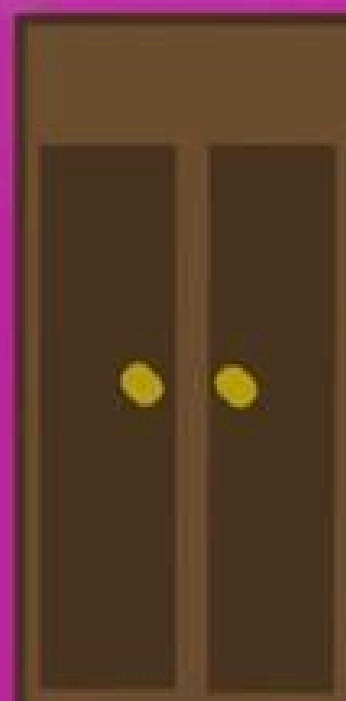

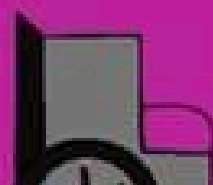

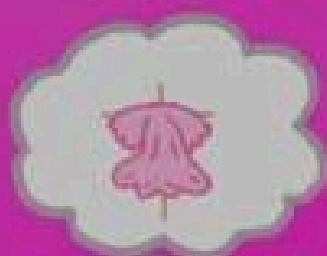

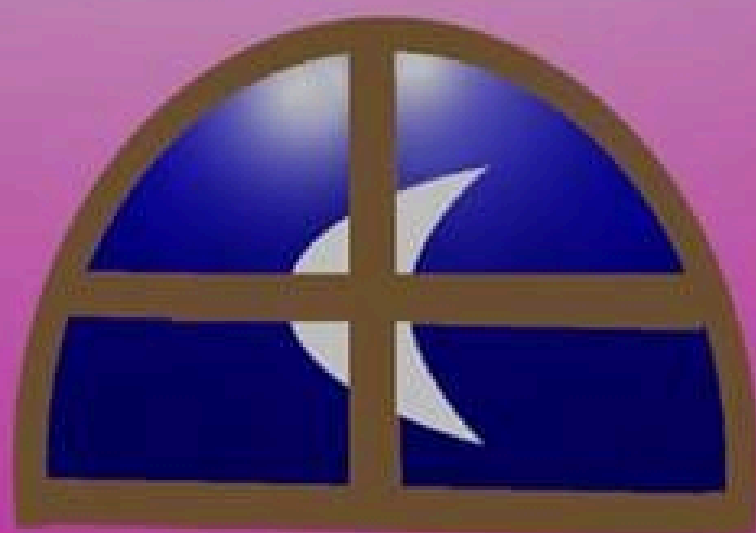

This book has been made with so much blood, sweat, and tears. We are proud of that.

We must say a huge thank you to our teachers, our parents and friends, and all the employees of the school, who believed in our job.

Hope you guys enjoy it!

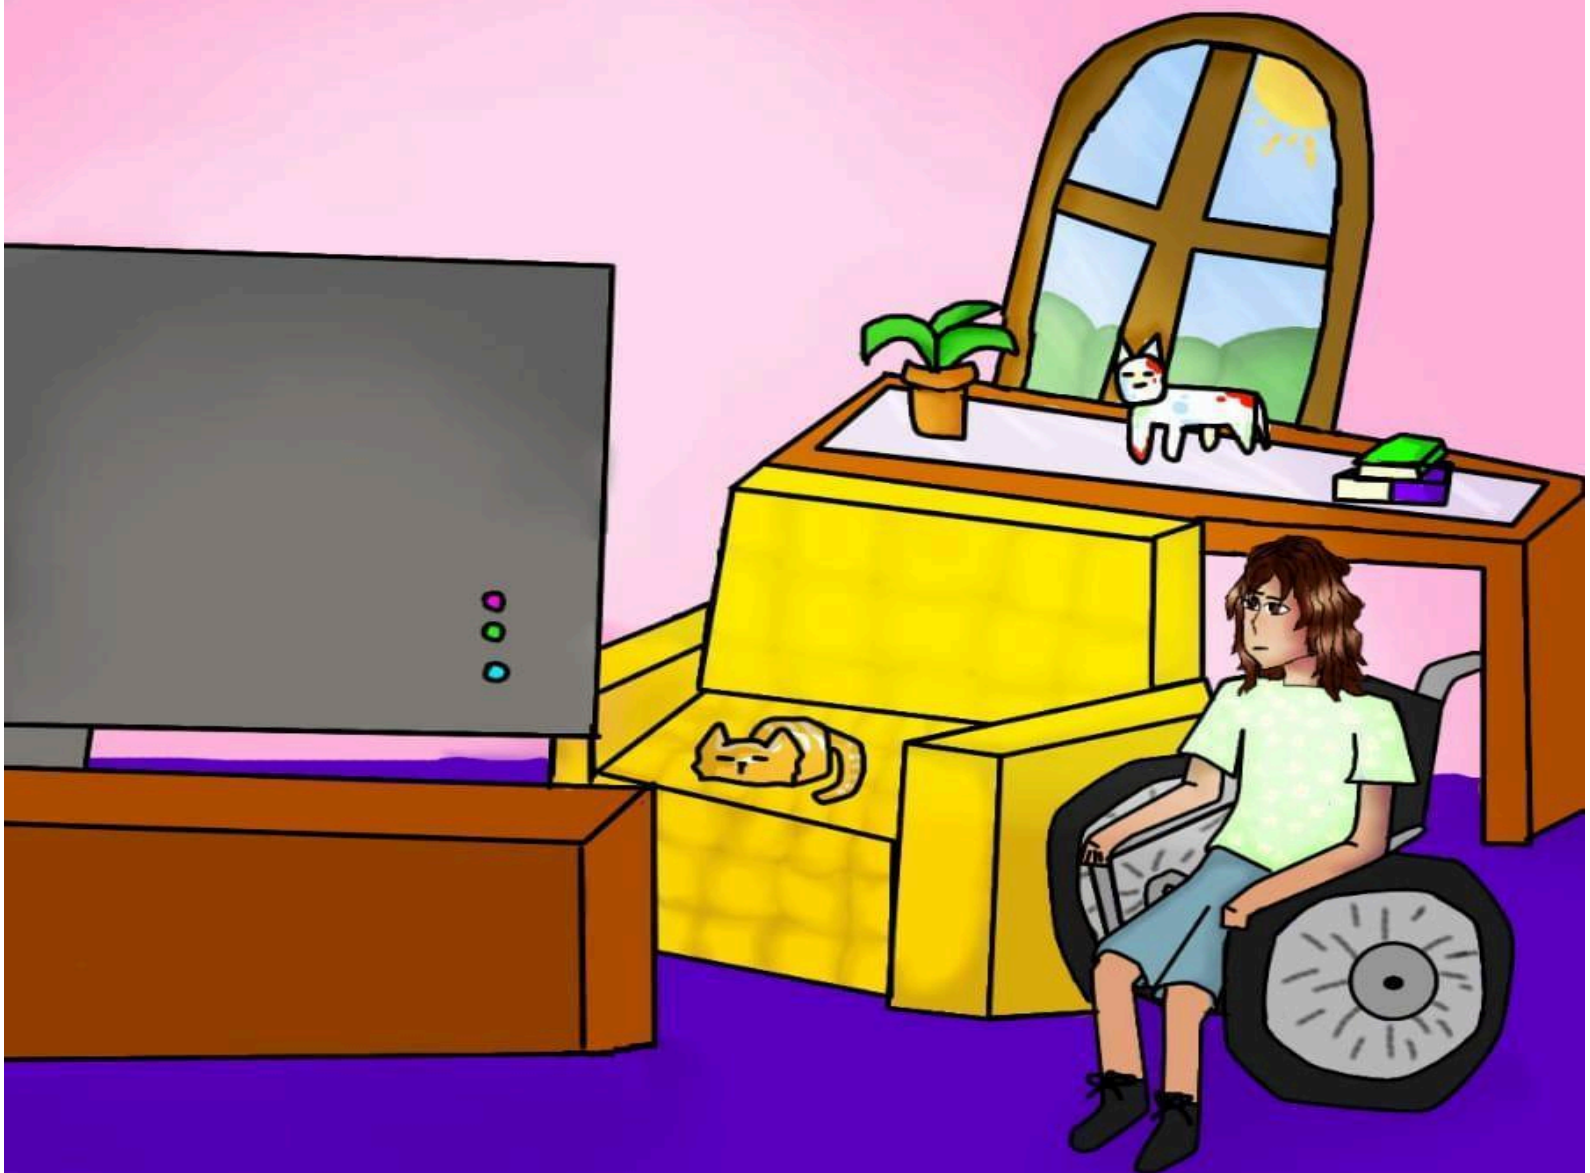

Once upon a time, there was a girl named Chloe who used a wheelchair and dreamed of becoming a ballerina.

One day, she was watching TV when a commercial for a ballet school near her house appeared

As she watched the commercial, her eyes lit up with joy, and Chloe mustered the courage to sign up for a trial class.

When she arrived at the school, she was very nervous, unsure of how people would react to a dancer in a wheelchair.

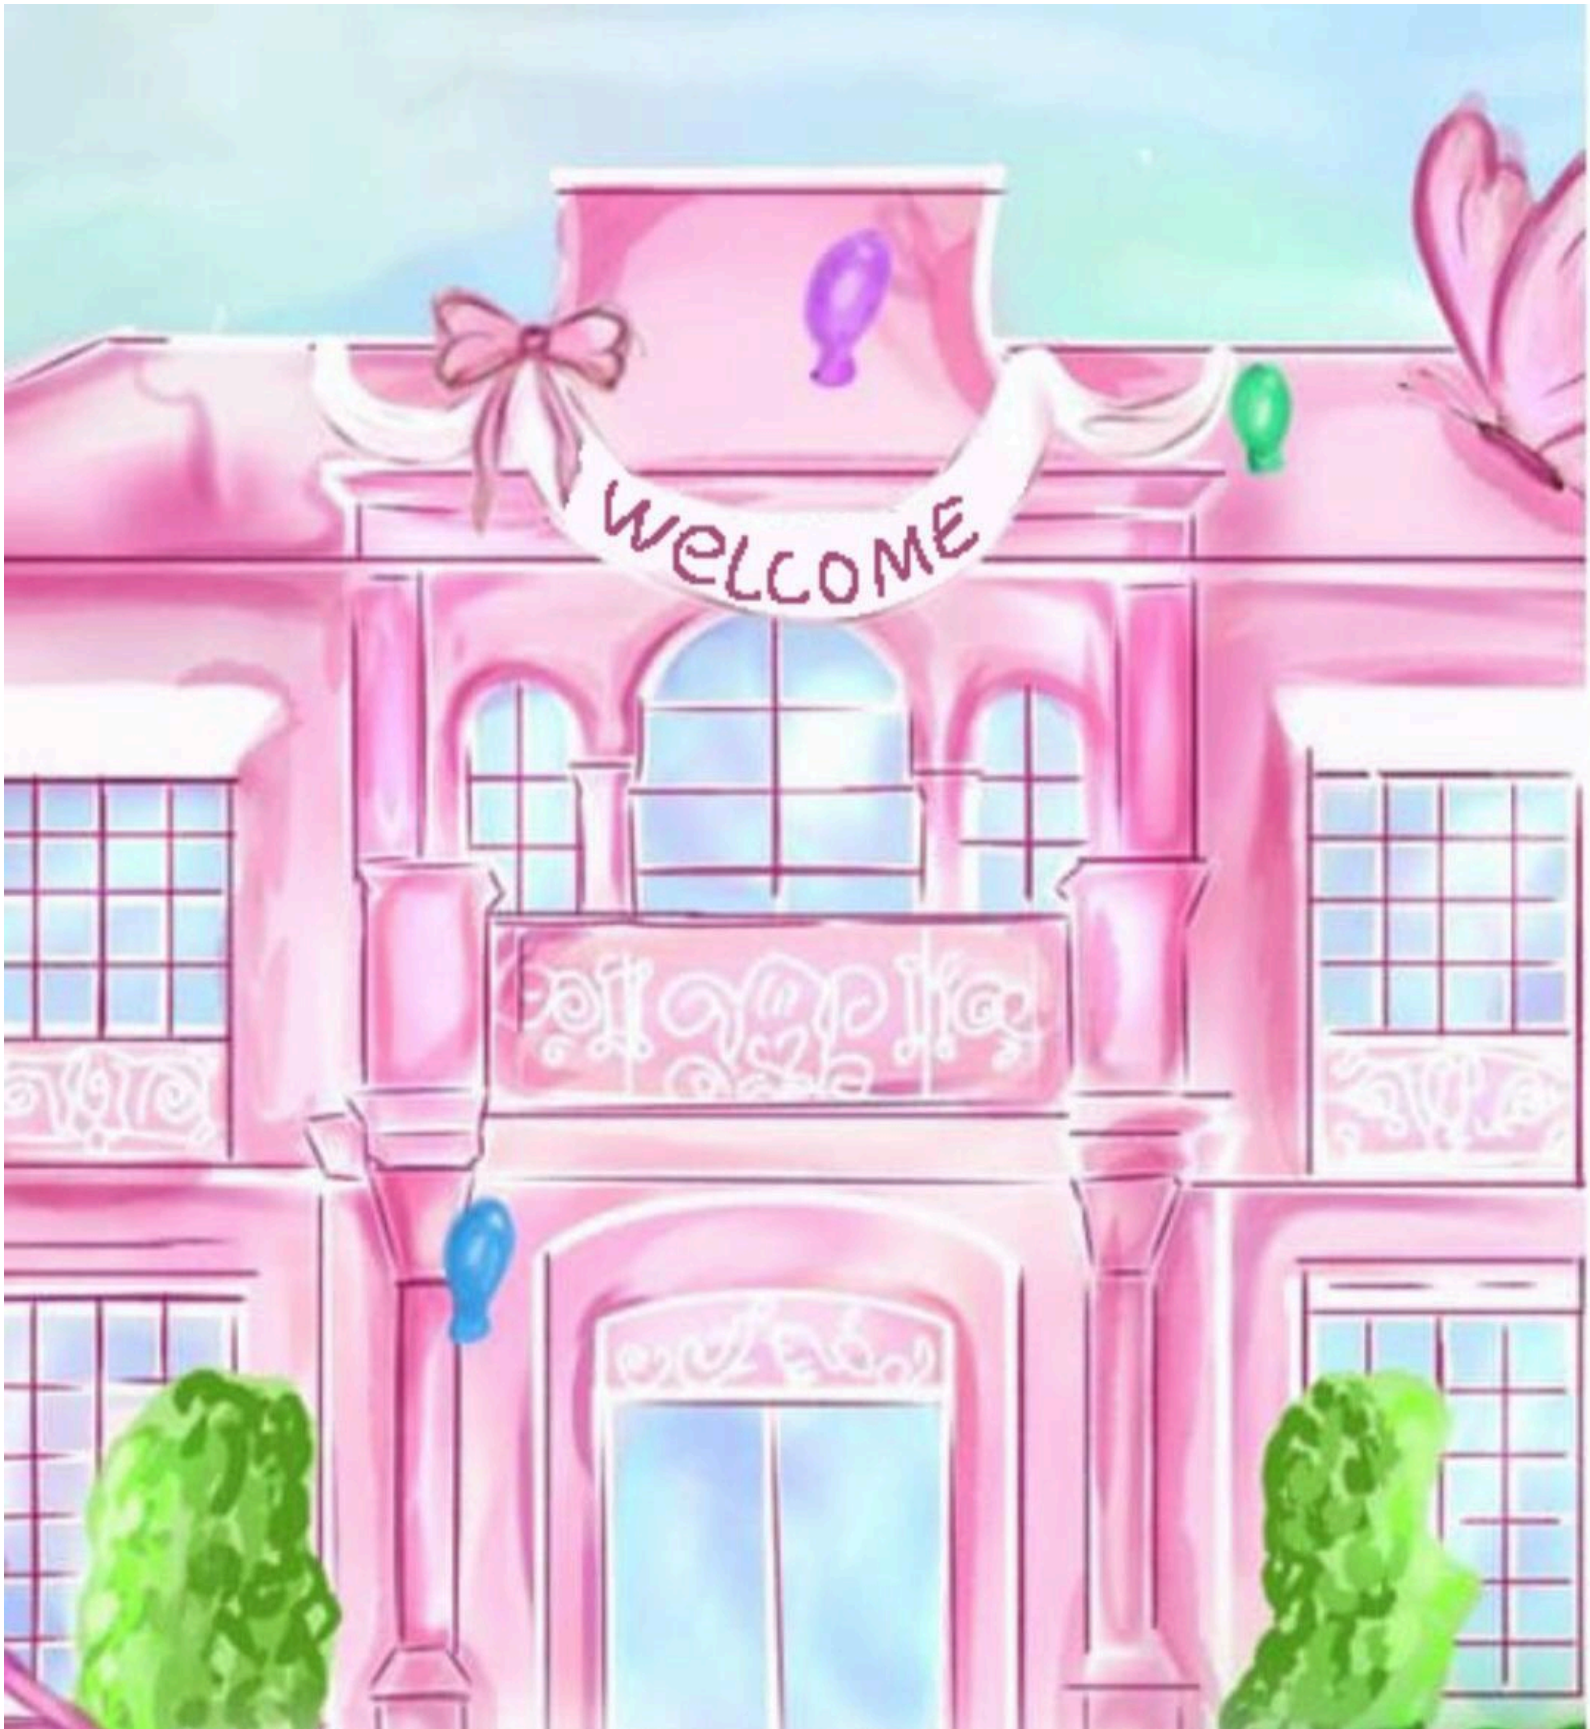

BALLET

However, the class went well, and she met two new best friends: Cassie and Peter, who encouraged her to enroll in the ballet academy.

Their performance was so outstanding that it was broadcast live.

Chloe and her friends became famous, and with the money from their newfound fame, they opened a ballet academy that welcomed everyone, regardless of their physical condition.

We are the 7B class from Colégio Christus Sul. We've been studying together since the beginning of the year and doing a lot of work together. We know the importance of reading to improve your skills in a different language and hope our book helps you in this amazing journey.
